Step 4. Enter the Street Name where it asks for it.

Step 5. Click the Submit button in the same row as the information you just entered.

The screenshot shows a web form titled "Search by APN, Address or Subdivision:". It contains four search sections, each with a "Submit" button. The first section has fields for "Book:", "Map:", "Parcel:", and "Split:". The second section has "Street #:" (with "13402" entered) and "Street: (name only)" (with "Micheltorena" entered). The third section has "Last Name: or Last Name" and "First Name:" fields, with "Street: (name only, not req)" as a label. The fourth section has a "Sub-Division Name:" field. Below these sections is a red note: "Note: Above searches only return RESIDENTIAL information." followed by a "Search by MCR Number:" section with "Book:", "Page:", and "Sheet:" fields. At the bottom is a blue hyperlink: "Search by street intersection".
